

ABOUT US

We are partner teachers and students who volunteer to carry out activities in order to make the Earth a more liveable place.

Partner countries in the project are: Türkiye, Croatia, Lithuania and Ukraine.

The aim of this project is to increase an awareness about climate change, drought, food waste, forest fires, rapid depletion of resources, and waste of energy resources. Teachers and students who have met for this purpose dealt with these problems and carried out activities within and outside the school. Partner schools have taken a serious action by cooperating and forming mixed teams.

OUR MOTTO

Every individual counts in changing the World for better!

JOIN US IN TAKING ACTION!

AN ETWINNING PROJECT
DO SOMETHING FOR THE WORLD!

WHAT WE DID SO FAR?

We held a logo contest to choose the best logo to represent our project.

ESafety

Students attended an e-safety training.

Students designed a new year calendar collaboratively.

ECO-FRIENDLY

Each partner school carried out eco-friendly practices and published their work on Padlet.

We carried out 3Rs activities at school.

Recycle
Reuse
Reduce

BANNERS FOR A BRIGHTER FUTURE

Students designed posters and hanged them around school in order to draw attention to the importance of keeping the Earth clean.

We organized a day trip to a recycling facility to observe the process of reusing waste materials.

MIXED TEAM WORK

As a mixed team work, students recorded videos about the conservation of natural resources such as water, plants, forests, etc. so that the ecology of the Earth preserves.

We then published them on a Padlet.

PLANTING A TREE

Students planted a tree sapling in their school garden.
